Descrizione

The "Vermenagna Ring" represents a fundamental connection between the lower valley and the transboundary Alpine ridge. By means of this itinerary, it is possible to reach France or connect to the ex-military road "Limone-Monesi" through Colle di Tenda, Colle della Perla, Passo della Boaria or through the adjacent municipalities. The Vermenagna Valley has a great potential for tourism and hiking, especially considering its geographical location and the fact that it is located between the two Protected Areas of the Maritime Alps and the Mercantour National Park in France. The route also has an interregional connection value as it links the trails of the lower Vermenagna Valley, or of the adjacent valleys, with the GTA (Great Crossing of the Alps) and can also represent a valid alternative to the latter, especially in case of snowfall at high altitudes or lack of managed accommodation facilities. On a local scale, the itinerary is configured as a link between the high and low valleys and with respect to the adjacent valleys. It also favors the interchange between train-car/camper-bike and bicycle. The entire Vermenagna Ring can be covered by mountain bike and, during the winter season, it can be covered entirely with snowshoes.

Public transport access
Yes

Ferrovia (Linea Cuneo-Nizza)
Trasporti pubblici Autobus ATI (Linea Cuneo-Roccavione-Roaschia)
