Descrizione

Leaving the village behind you, take the road on the left, heading north and continue along the path for about 1.5 km, until you join the road.

Turn to the left, as far as the main road in Cavallo Grigio, part of Robella. Turn left and then immediately right, near the Cascina Vallone, following the uphill path.

You reach the road, then turn right before the village of Cascine; you go further for less than 1 km until you reach the cemetery.

Proceeding further, you will pass the magnificent castle, and then the junction with the road to Cortiglione. Here there are places to stay overnight.

Advance in a northerly direction, continuing down hill and touching the villages of Cà Masino, Castella and finally Cortiglione, a hamlet of Robella, after about 2,200 m.
