Italy

# **Descrizione**

## **ACCESS**

From the main road between Cuneo and Saluzzo, take the exit for Valle Varaita and go up the valley to Frassinò (about 20 km from Costigliole Saluzzo and from Villanovetta). From the town center, next to the bar La Spada Reale, turn right and after a few meters turn left and follow the signs to Borgata Chiaronto. Keep going left at the next junction and after parking the car near the Borgata Chiaronto church (3 km from Frassinò). The asphalt road goes under the portico of the church and ends after a few meters. Enter the village and follow the red and white signs.

## **ITINERARY**

Enter the village and follow the red and white signs, in 15 minutes you will arrive at the start of the path. Immediately a small ridge and a stretch of equipped path lead to the first bridge, then another section of trail that passes through a characteristic hole leads to the mesh. After the mesh is the Tibetan bridge, short but exposed; there follows the hardest part of the path, a wall about 10 meters high with two steep and strenuous sides, ( a stop is highly recommended) after that an easy and long enough wall leads to the footbridge, 70 meters long and suspended 70 meters above the ground. A last mesh bridge leads to a beautiful terrace where the via ferrata ends.

## **DESCENT**

Go back a few meters and take the downhill path, which at the beginning is very steep and slippery.

Escape routes are always before the various bridges and cliffs.

**Accesso con mezzi pubblici** No

Maggio- novembre

**Accessible to people with disabilities** No

**Interesse devozionale** No

**Interesse storico** No
