## **Descrizione**

### **ACCESS**

From Dronero (Cuneo) take the Maira Valley until Acceglio, turn left and take the Vallone of Unerzio

up to Pratorotondo (parking).

### **ITINERARY**

From Pratorotondo, take the paved road, past the towns of Viviere; the 2nd hairpin turn go to left and, after about 500 m, take the path on the right (signs for Colle Enchiausa) when you reach the Enrico Mario bivouac there is a panel which describes the itinerary in detail. (Do not follow the 'sign on the right VF in yellow, just below the lodge)

The route is all made safe with new cables and anchors.

In the first section after the bivouac the trail is narrow but well marked, in steep slope. Later, the trail becomes more exposed, but there are the anchors to climb to safety; then begin two parallel cables with short break, where you can clip to the anchors. It leads to the second refuge and climb the long final staircase leading to the Cima Dronero (3050 m).

Wanting to reach the true summit, you are faced with a sudden unprotected, with a passage of 4 ° degrees

## DESCENT

It occurs along the ascent route (you may want to bring a 50 m length to be able to perform in some abseiling points).
