Arrival altitude 2500 m

Descrizione

The route starts next to a stone building (road sign marked "Sentiero Videsott") climbing to the right of the road that leads from Ceresole Reale to the Colle del Nivolet a hundred of metres before the bridge over the Percia river that overlooks the wide valley of Chiapili di Sopra with its spectacular waterfall. Climbing among the green alder bushes we pass by old ruins (1858m above sea level), and then, with a climbing traverse to the left passing through scree, we reach the pastures of the alpe Pertica, in front of the northern walls of the Levanne. It runs along the rio delle Percia for a while, turning right towards the alpe Fumetta (2165 m). Then turns right along some comfortable turns to meet the alpe Pianass (2294 m), at the very edge of the scree at the foot of the punta Rocchetta (2922 m). Veering

to the left we continue towards the alpe Muanda (2350 m) and from here the footpath climbs first to the right and then left until, near the alpe Comba, it crosses the Royal hunting road connecting Nivolet to Noasca along the Colle della Terra and Colle della Porta. <http://www.renzovidesott.it/pngp/>
