# Descrizione

The itinerary winds along paths typical of the mountain physiognomy with others typical of hilly and flat areas, with a climate that is not too harsh in winter and breezy in summer which favors the discovery of naturalistic resources (e.g. along Stura di Cafasse - Sentiero della Pianca , Naturalistic Area of ??the Basso di La Cassa) of the territory and is suitable for every type of use and almost throughout the year (on foot, on horseback or by mountain bike).
