Arrival altitude
500 m

Descrizione

The route starts from Albugnano and crosses it, then continues on the road to Passerano, at the junction turns left towards Vallana San Luca where, after the houses, you have to go down to the right for a small road leaving the asphalt. After a curve on the right you arrive in view of a bridge that you cross through reaching the Curono Farm; the path continues uphill, the road returns paved and at the junction on the right you reach San Rocco di Marmorito. At the war memorial, turn left for 100 meters, at the junction leave the main road and descend to the right for 50 meters on the asphalt; at the bend you turn right again to a path that descends towards the valley floor. When you reach the floor, the path turns left and reaches the SS 458. Follow it on the left for about 300 meters until you reach the sign on the left; at this point you take a small road on the right that goes up through the cultivated fields. the path bypasses a farm on the left just beyond the nursery and always on the left uphill reaches the asphalted road that leads to Cocconato. Leaving the square, take the road towards the Sport facilities and under the cemetery, take via Bonvino which, with a wide path, in a typically rural environment leads to the railway station located at the bottom of the valley. the path leaves a wine-house on the right, crosses the railway line and then immediately on the right for a path, after 50 meters on the left along the uphill pipeline to the town of Tuffo. From the village it follows the road to Sant'Anna; Once you reach the hamlet with a half-way path you reach the hamlet of Cortanieto and from there, always following the hilly ridge, passing near the Pieve di San Carlo, along the asphalt road you reach Corziagno and then Murisengo.
