Descrizione

Starting from Lucco (620 m) continue on track no. 001 to Village Castello. You follow for a short stretch the asphalted road, and at Village Borlera you take path n. 001A. After the village Ciaine, you proceed northway on track n. 002B, reaching Case Fontanabruna (849 m). Following Northway path n. 002, you will cross track n. 010 which, turning right, leads half-coast at Bassa delle Sette (1158 m). From here, turning north, you will shortly reach the Chapel Madonna della Neve. This zone is a protected area because of the presence of Ephorbia Gibelliana. From this site you can enjoy a splendid view of the plain of Turin and of La Mandria Park. The tracks n. 010 and then n. 010C lead downhill to Givoletto and to the dirt road to Costa Crest. First you descend to Santa Maria Ausiliatrice (554 m) and then through path n. 005B to Village Rivasacco (402 m). The track n. 005 crosses the provincial street, and on a dirt road you arrive to the area Pralungo, then you continue to follow path n. 006A on dirt road, that ends at the stage point at Cascina San Giovanni (362 m). Otherwise, you can reach the nearby village of La Cassa where there are other accommodation facilities. As we are located near the entrance of the La Mandria Park and near the eclectic Castello della Bizzaria, it is suggested to enrich the experience with a tour of the park both on foot and by bicycle.

Public transport access
No
