Arrival altitude
1840 m

Descrizione

As a variant, you can reach Rif. Soria via Rif. Pagarì. From S. Giacomo you reach the junction for Rif. Moncalieri. A section of mule track with a good gradient takes you over the Muraion Pass at 2,050 m. A little further on, the track runs flatter and reaches the abandoned Gias Muraion soprano, 2,090 m. Towards an altitude of 2,200 m, leave the turnoff for Lago Bianco dell'Agnel on the left and continue with a series of twists and turns to the refuge.
From here, we set off again towards the Rif. Ellena Soria on a demanding track that crosses the M. Gelas glacier, passing the Lago Bianco del Gelas (2,549m) and the Passo dei Ghiacciai where the Moncalieri bivouac is located (2,750m). We then pass the Pera del Fener Pass (2,698m) and descend to the Soria-Ellena refuge (1,840m).

Public transport access
No

Recommended period

Summer
Luglio, agosto, settembre

Accessible to people with disabilities

No

Devotional relevance
No

Historical relevance
No
