Descrizione

From the hamlet of San Colombano in the Municipality of Exilles, follow a stretch of the Sentiero Balcone trail, taking path 814 up to Grange della Valle. From the parking lot in the hamlet of Grange della Valle (road closed with barrier), the path up the Galambra valley begins. Climb up tortuous, narrow hairpin bends, passing a fountain, and reach Colle d'Ambin (m.2897). Care is required when negotiating sections equipped with fixed safety cables (no climbing equipment is required). Near the pass, there is the Bivacco W. Blais mountain shelter (m. 2922). From here begins the descent into the Ambin valley. The path (marked with stone cairns) first skirts the lake and then continues along the stream. Near the intersection with the path that comes from the Colle dell'Agnello the trail becomes more evident and then reaches Rifugio d'Ambin (2,270 m).
