Descrizione

From the locality of Baume di Oulx, head up to Grange Auberges until it intersects the Sentiero Balcone Trail. Head up westwards and near Monfournel you will come to the junction with waymarking for Pramand following path 735. Hiking along the steep ridge you get to a junction with a cart track for Pramand. Follow this in an easterly direction for a few hundred meters which leads to the Galleria del Pramand tunnel. At its exit there are some barracks. The path then climbs towards the ridgeline which is the watershed with Valfredda. Follow this until you head up a scree slope and reach the summit of Cima del Vallonetto, where there is a small mountain shelter.
